FROM THE HORTICULTURIST,

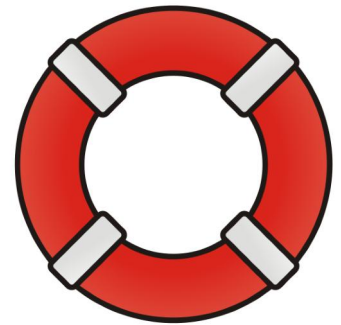

LISA JOSEPH:

April is the month that most of the spring-flowering bulbs bloom, rewarding us with glorious bright colors and delightful scents. These lovely flowers herald in the beginning of the upcoming warm season. They provoke positive feelings and that eager anticipation of the lush and green and colorful to come.

The landscape crew and I planted many bulbs last fall in the corner beds.

Our laborious efforts can now finally be appreciated! Revenue from the 2017 Home Tour allowed us this extra landscape benefit!

I thought you might like a list of the bulbs that were planted so that you will know their names and when it's time for them to pop up out of the ground....see next page
